

Worried about your child using alcohol, tobacco, or other drugs? **YOU ARE NOT ALONE.**

We're **FACES**, an organization of Vermont families who understand the problem of teen and young adult substance use. We're pulling together to help ourselves and our children. We can help you:

- understand what is happening to your child, your family, and you
- find other parents and networks that will give you support
- locate resources and information about prevention, intervention, treatment and recovery
- get involved with advocacy and public awareness activities

For support and information contact the VT FACES Network at **1-800-769-2798** (Friends of Recovery–Vermont) or visit our web site: www.vtfacesnetwork.org

We're here to help.

When you need to find resources or support from someone that's been there, call us.

Call **1-800-769-2798**

(Friends of Recovery–Vermont) or visit us at vtfacesnetwork.org
